

Joe Lamyman

Final Year Student with a passion for Interactive Technologies

Programming Languages

Awards & Honours:

Nominated for the Grads in Games Awards 2018 Student Award
For being an ambitious student that has demonstrated a real positive impact within their work & with their fellow students.

Bird & Co IT Scholar Award
For completing both A Level IT and Computing, the first student to do so in the school's history and receiving excellent marks while doing so.

Interests:

Football

I play in the defence for my college's football team at university. We became the first team in the College's history to reach the College Cup final in 2016.

Calligraphy

One of my main interests is Calligraphy and I also enjoy looking at Logo Design. I enjoy looking at styles I haven't seen, trying to replicate them and understand how they're formed.

Reading

I enjoy reading around my current topics for my Interactive Media and Society module. Ask me about what I've been reading recently!

Education:

Interactive Media (BSc), University of York

2015 - Present

- **User Experience Design** - Practiced a wide array of design thinking methods and completed an exciting project with The Yorkshire Museum. I was invited back to pitch my project as a result of achieving high marks within the module.
- **Web Application Design and Development** - Created simple, elegant websites that facilitated great user experience and functionality.
- **Mobile Interaction** - Created a pertinent Java based Android mobile application, thinking carefully about the medium and the user experience.
- **The Digital Self** - Furthered my understanding of humanities, learning about topics such as posthumanism and self-expression within digital cultures.
- These are only a few of the modules I've completed, feel free to ask me about more of my University work, such as the project I completed with IBM.

2008-2015: A Levels & GCSEs, Kings School Grantham

2008 - 2015

- A Level: Double Award ICT (AB), Mathematics (C), Computer Science (C), General Studies (B)
- AS Level: Physics (D)
- GCSEs: 2 A*s, 11 As, 1 B

Professional Experience

Research Assistance

Feb - Mar 2018

- Working with the head of Interactive Media, Dr Jenna Ng.
- Researching independently and efficiently organising material.
- Managing time effectively to give myself time to complete the work alongside my University deadlines.

T&O Summer Intern, Santander

Jul - Sep 2017

- Worked on a multi-million pound, UK wide, project.
- Organised reports and extrapolated data to communicate clear and informative messages.
- Developed a new system for reporting IT issues within the project and oversaw the implementation of this method.
- Managed time in a pro-active way to learn as much as possible from the experience and learnt about different roles within the company.

Shop Floor Assistant, ASDA

2014 - 2017

- Managed the shop floor independently as well as in a team. Performance with a mystery shopper earned me the accolade of one of the star employees for the month.

Additional Experience

IM Showcase Lead Director

Present

Directing and developing an innovative event, allowing IM students a platform to showcase work. I am the leader of the IMS Committee and also liaise with staff to ensure the progression and success of the event.

Digital City York

Feb - Mar 2018

Volunteered for Digital City York, a scheme to get those between the ages of 6-10 into programming. Consisted of three hour long sessions where I helped teaching children the basics of Scratch.

CodeFirst: Girls

Sept - Nov 2017

Volunteering where I taught a class of 27 women, 2 hours a week for 7 weeks. Two students and I developed content for each week and taught flexible sessions, based around the classes needs.
